

MouseAdventure

The history of Disney comic magazines outside of the United States is a very interesting one with many different countries producing new comics on a weekly basis featuring Disney characters. In July of 2008, Wade Sampson wrote an article called "The Mickey Mouse Weekly Story."

Below is a series of pairs of numbers, each pair corresponding to a paragraph and a word within that paragraph in Wade's article on MousePlanet. Once you identify the correct words, they will reveal a question. Find the answer to that questions somewhere on MousePlanet.

For the sake of this quest, advertising, headlines and bylines are not considering to be part of the article. Only use the article when counting your paragraphs. Consider hyphenated words to be a single word, and treat numbers as words as well (1938 would be one word.)

This is just a taste of the fun that's waiting for you at our first ever MouseAdventure in Walt Disney World. Are you game? Register today at mouseadventure.com!
